

Queensland Brain Institute & Munich Center for Neurosciences

Systems 1st QBI-MCN Symposium Neuroscience

28-30 September 2011

The University of Queensland, Brisbane, QLD, Australia

The inaugural symposium on Systems Neuroscience between the Queensland Brain Institute (QBI) and the Munich Center for Neurosciences (MCN) brings together their leading researchers in sensory, cognitive, cellular and molecular neuroscience to share their recent findings with the Australian neuroscience community. Join us for a keynote lecture, topic-specific sessions, and a poster session with wine and cheese. Participants are also invited to attend an informal cocktail party on the opening night.

Registration is FREE, but RSVP is essential for catering purposes. Participants are invited to bring a poster for display. Please include author(s) and poster title when registering.

To register

Send an email to events@qbi.uq.edu.au by 31 August (if submitting poster) or by 19 September (if attending).

For further information please contact j.reinhard@uq.edu.au

Speakers from MCN include:

Prof. Benedikt Grothe, Director MCN
Prof. Heiner Deubel
Prof. Magdalena Götz
Prof. Mark Hübener
Prof. Rüdiger Klein
Prof. Christian Leibold
Prof. Lutz Wiegrebe

Speakers from QBI include:

Prof. Perry Bartlett, Director QBI
Prof. Geoff Goodhill
Prof. Ottmar Lipp
Prof. Justin Marshall
Prof. Linda Richards
Prof. Pankaj Sah
